

## Project overview

**Project name:** BIKAR ZONE EAST

**Location:** BIKARstraße 1, 07754 Korbußen, Thuringia, Germany

**Area:** 22,000 m<sup>2</sup>

**Investment:** 60 million euros

**General contractor:** Max Bögl, Sengenthal

**BIKAR**  
**AEROSPACE**

# BIKAR ZONE EAST

Where our future is still a family tradition.

### Automation and digitalisation:

- Fully automated production processes: Efficient aluminium processing at the highest technical level
- IT integration: Development of new digital technologies for process optimisation and quality enhancement

### Economic benefits:

- New specialist and technology-driven jobs
- Regional value creation: Strengthening the economy and Thuringia as a business location
- Sustainable growth: Investing in the future as an innovation hub for metal processing

### Target industries:

- Aerospace
- Mechanical engineering and other industries

### Construction timeline:

- Groundbreaking ceremony: 4 February 2025
- Planned completion of new building: End of 2025

### Sustainable and environmentally friendly:

- Energy-efficient construction: Sustainable materials and technologies for reduced energy consumption
- Emission reduction: Optimised processes for a minimal ecological footprint

### Contact and Information:
